

STUDY IN ENGLISH AT OSAKA UNIVERSITY

Degree Programs in English
International Credit-Exchange and Double-Degree Programs
Short-Term International Exchange Programs

CAREN channels the internationalization efforts of Osaka University

About CAREN

CAREN stands for Osaka University Center for the Advancement of Research and Education Exchange Networks in Asia. Established in April 2014 with the goal of enhancing the international appeal of our 3 campuses and facilities at Osaka University, CAREN will be channeling many of Osaka University's internationalization projects and efforts and will be the gateway to knowing more about them.

Our vision includes:

(1) promote and strengthen existing international programs and create new ones; (2) initiate new credit-exchange and double degree programs with Asian universities; (3) enhance living conditions for international students; (4) activate more student and faculty exchange programs; (5) plan and support e-learning and distance learning resources; and, (6) establish an international alumni association.
